RE: Edisto Beach Nourishment Project – Permit Application
[CSE 2092]

Dear Mr. Joyner:

On behalf of the Town of Edisto Beach and the SC Department of Parks Recreation and Tourism, I am enclosing three sets of the permit application for the above-referenced project. The proposed project involves beach restoration by nourishment along portions of Edisto Beach in Colleton County, South Carolina.

The Town of Edisto Beach has agreed to serve as the applicant for SCPRT to facilitate processing the permit. Work for PRT's and the town's reaches will be accomplished under the same dredge mobilization. Enclosed with this application is a letter from PRT confirming coordination with the town project.

The Town of Edisto Beach is preparing an updated list of adjacent property owners and will forward that directly to your office as soon as possible.

In the meantime, please contact me if you need additional information. Thank you for your consideration.

Yours truly,

Timothy W Kana PhD PG (SC 564)
Project Director
